Street Re-Striping Project to Begin Monday, September 24th

Clearlake, CA – September 20th, 2018

Contractors will begin work on Monday, September 24th on a re-striping project for major collectors and arterial roads throughout Clearlake and motorists can expect intermittent delays due to the road work. The re-striping project will include centerlines, bike lanes, fog lines, left turn lanes, and crosswalks. The estimated completion date of the project is Friday, October 12th.

The re-striping work will impact portions of the following roads:

- Acacia Street; Arrowhead Road; Burns Valley Road; Rumsey Road; Olympic Drive; Lakeshore Drive; Old Highway 53; Dam Road Extension; Dam Road; and Pine Street.

Clearlake Public Works Department will notify the public via Nixle about anticipated roadwork delays so that motorists can avoid those areas. Re-striping will also be done overnight in certain areas to minimize impacts to motorists.

According to City Manager, Greg Folsom, "This is the latest project to be funded through Measure V that will help to improve roads and road safety within the City of Clearlake. In many areas of the city the fog lines and the center lines are worn out and barely visible. This project will define the roadway, bike lanes, and crosswalks and create a much safer roadway for our citizens."
